About the Course

This is a classroom-based workshop, which will be held at one of our venues.

Learning as a family helps children and adults to become confident, lifelong learners. It helps children develop essential skills and achieve at school. It helps grown-ups to reconnect to learning and transform their lives.

This session is for adults and children to learn together about science phenomena that are exciting and fun. You and your child/ren will be given an opportunity to try several exciting science experiments.

In recent years the climate crisis has become one of the most important challenges facing Earth and all of Earth's inhabitants. Understanding how the greenhouse effect works is a fundamental lesson we need to be teaching the next generation.

Course Learning Outcomes

- Explain why certain phenomena happen in the way they do
- Complete several science experiments working together with your children

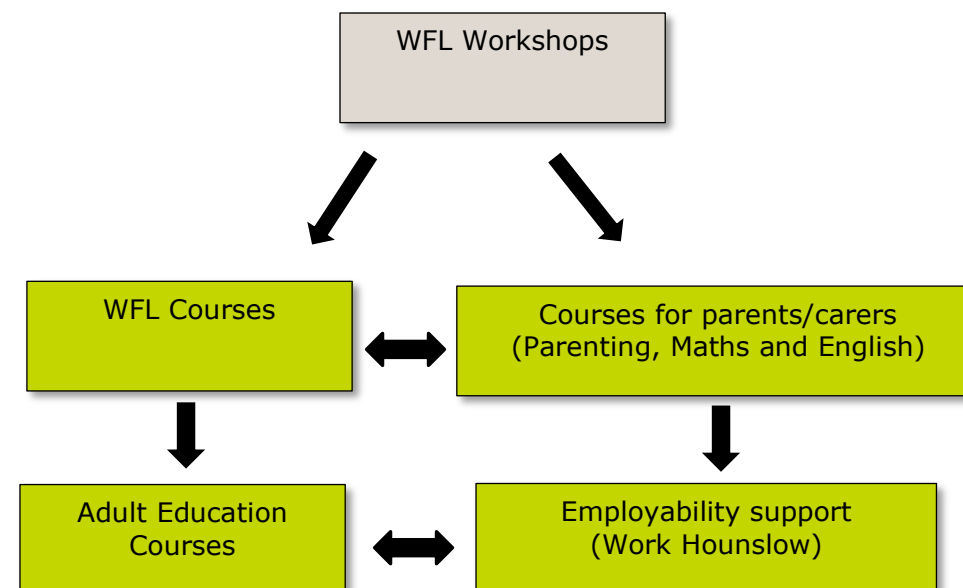

Please note: To successfully complete this workshop you must commit to 100% attendance and punctuality.

What is needed for the course?

- These sessions are for adults and children to work together - parents will need to supervise their children at all times.
- For health and safety reasons, children must be over the age of 5 years to attend these sessions.
- Please note we can only accommodate 1 adult to 2 children per family.

If you need any additional support, please call us.

Progression Pathway

We can also provide you with information, advice and guidance for employment or further learning.

- ▶ Please speak with your tutor or
- ▶ Call 020 8583 6174 to speak to an advisor or
- ▶ Email work@hounslow.gov.uk or
- ▶ Visit www.workhounslow.co.uk
