About the course

This course is part of our creative arts programme designed for learners to develop their skills in a specialist art subject. It is suitable for both beginners and learners with some painting experience, who wish to focus on the watercolour medium. Once you have completed this course you might decide to continue learning painting techniques at our creative programmes to gain more confidence so to start practising more independently.

On this course you will learn how to apply loose and free flow techniques to watercolour paintings. You will explore wet-in-wet techniques and colour compositions and complete at least one painting per session. The themes will be varied and suggested by the tutor.

What will I learn?

After this course you will be able to:

- Prepare your workspace with appropriate materials and equipment for free flow water colour painting
- Employ colour theory to mix colours cleanly
- Laying watercolour washes and working wet-in-wet
- Complete a quick watercolour painting within each session, that makes use of the techniques you are learning
- Apply health and safety when using and cleaning up tools and equipment after a painting session.
