About the course

This course is for learners who have been painting before and want to grow more confident in their own practice. You will be developing a series of paintings to extend your drawing and painting portfolio. Your tutor will guide you through a variety of subject themes that you will respond to with your own interpretation with a personal image. Working in a group of likeminded artists you will be supported to shape up your use of the brush and palette.

This course is part of our creative art specialist programme designed to enable learners to develop their practice in visual arts. Once you have completed this course you might join a local painting group to continue your painting practice or continue your learning on advanced painting courses to build your confidence, for example on *Drawing Painting – Towards exhibiting your work*.
