About the Course

This course is part of our business learning programme aimed to support local residents in starting their own small fashion business or growing their existing one.

On the course you will be exploring the different avenues of a fashion business, such as selling apparel and accessories as well as fashion services including makeup and sewing. You will also learn all that you need to know to take your first steps in fashion entrepreneurship.

This course is for beginners with little or no previous knowledge of numbers around a fashion business. However, to access this course a good level of written English & basic digital skills is essential. Please note this is an online course, which will be held via Google Classroom. A log in will be provided.

Course Learning Outcomes

- Understand key elements of a fashion business & fashion forecasting
- Fashion inventory optimisation by sales forecasting
- Identify the costing and pricing elements in a fashion business
- Estimation of capital requirements for the proposed fashion business

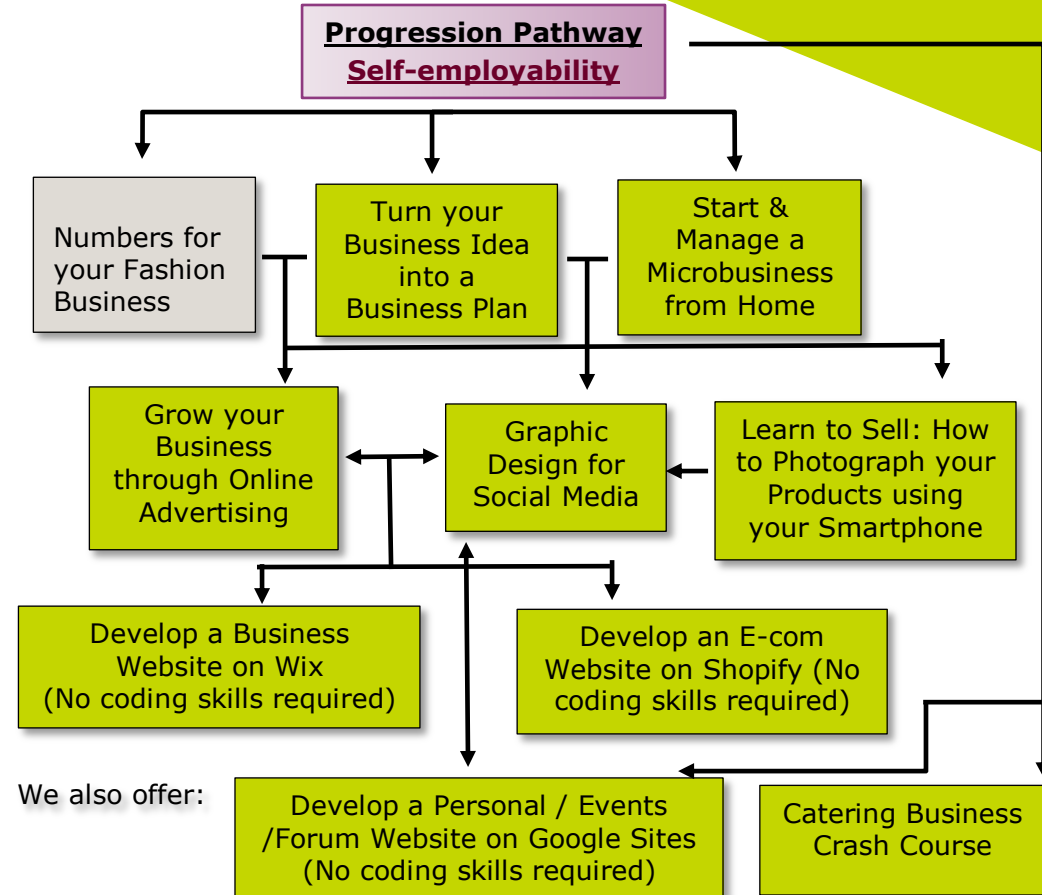

Please note: To successfully complete this course you must commit to 100% attendance and punctuality.

What is needed for the course?

- Laptop or computer
- Basic digital skills
- Good literacy skills

If you need any additional support, please call us.
